

FEATURING
KELZANG
JAMTSHO

**100 YRS
OF ROVER SCOUTING
IN THE COLLEGE**

**BHUTAN UNIVERSITY
SPORTS FEDERATION**

HE
WILL BE
PROUD
OF ME

Championship In Veins

Sunil Sharma, D2M

Sport have been a tonic for people of all ages, it not only helps relieve stress but also helps to develop team spirit and allows an individual to know about themselves. This story is about a young aspiring athlete Kelzang Jamtsho. He plays Football, basketball, volleyball, indoors, runs marathon and many more. He is an all-rounder player. Inspiration plays a key role in learning anything, for some it comes naturally, some through other players, some through the internet for Kelzang it was his father who used to be a great footballer. "My father is the main reason I got into sports, he supported me and inspired me" says Kelzang. His brother is also an outstanding volleyball and football player. It is true that athlete blood runs in the family.

“

*My father is the
main reason I got into
sports, he supported me
and inspired me”*

He started playing football from a very young age, then slowly started with the other sports. To further strengthen his abilities, he practiced in the school ground that was below his house. At the age of 9, he started taking coaching classes which helped him to develop his skills even more. Brazilian player Neymar is his favorite player and he continuously inspires him to polish his techniques even more. He is currently the captain of the college team who has taken the college to great heights in football in other colleges. Inspired by watching Indians soldiers play cricket, he started learning it too.

His hard work paid off when he became the national cricket player for under 16 and 19. He then started developing interest in indoor games. Badminton and table tennis were his favorite amongst others. He started playing table tennis when he was in class 9 and from

then on became school team for table tennis. He participated and got silver in table tennis double during BUSF 2018. With his inexhaustible stamina he participated in sprints and running events and earned many medals. Among all the sports he plays, football is in

number one followed by cricket and table tennis. Kelzang is truly a gifted athlete who has a bright future ahead of him.

He Will Be Proud Of Me

Rinchen Choden, D2M

Rinchen, a pale faced girl with a blond hair, it was her 15th birthday when she started feeling the different taste of her life. Everything around her was beautiful. Her father was always there to support her and her elder siblings to support her in terms of the studies. A mother who cooks the best for her. Happiness was getting to see her father smiling, being proud of his daughter excelling in the academics. She felt her life was easy and more than beautiful, with all her relatives around to live with and the best father to teach her how life was really meant to be, the one to love her the most, from whom she learned how to smile and her only world.

*“The one whom they
lost can't be called
back and it's not only
the happy memories
with which one's life is
possible to survive.”*

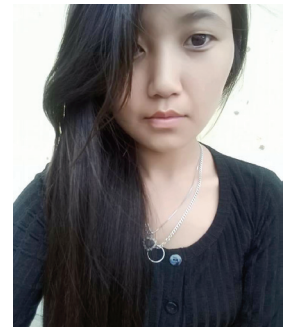

As the time passed by her father decided to move over the new place and settled there. Her father always took her everywhere he goes. One day she saw her father leaving home with her elder brother but that time he didn't wanted to take her along

with him. All her father could do was to whisper in her ear, “I will be back,” and he left. She didn't have any idea where they were heading and why but that moment she felt some parts of her have already started missing. Weeks went by, she kept missing her father. Every time someone visited their house she would be the first one to open the door to see if it was her father and every day, soon the moment she gets back home from school all she would do was to check her father's shoes being arranged beside the door.

One day her elder brother got back home but her father was nowhere to be seen. The looks on her brother made her started shivering and her heart beat irregularly. Just then all her father's friends started gathering at her home and saw them preparing for the funeral.

She pretended as if she didn't know anything and she heard her mother sobbing with an agony, “How will it be possible to raise those six siblings all by herself and that life is so unfair.” All she could do was hear a cry within herself. She couldn't make herself stable on her feet. The expectations and an eagerness to see her father and laying in her lap all went shattering. Yet she tried to be strong but pretended that she didn't know anything and tried consoling her mother saying that her father will be back and he will be fine.

The time has come, it was the bitterest part of her life, and everything changed within that short period of time. A father

Rinchen Choden, D2M

to dress her in every morning wasn't there anymore, her mother sits by herself all the day with an eye filled with tears. Everything just reminded her of her father.

Months passed by and she tried her best to be strong and move forward. By then she started her higher studies. Thing wasn't easy yet everyone in the family have started living knowing that the one whom they lost can't be called back and it's not only the happy memories with which one's life is possible to survive. Rather it was all in their hand to make themselves stable and stand by their feet.

Rinchen, though she missed her father so much and everything still reminded her of him she believed that he would always stay in her heart and will be always there by her side to bless her every time, and everything she do. Things might have changed but the love her father have installed in her are all there and it makes her feel secured, makes her brave day by day. She is ready to fight against all the odds and the hardships. She works hard and make herself be the best one because she believes that her will be proud of her.

Unemployment-The Everyday Crisis

Ugyen Thinley, D1C2

Be it internationally or nationally, the foremost issue known to everyone is unemployment. Unemployment is a burden situation where a person looks for a job but is unable to find a qualified job. When a person is employed in job, future is secured. It is because of the distinction between blue collar and white-collar job drawn by youth, the unemployment rate is rapid. Lack of qualification and skills, low wages or salary below the market rate, corruption, urbanization, rise in population and companies looking for the competent candidates are some of the main causes of unemployment. These

“Take the courses as per the interest and which will bright your future.”

crises or an issue will never come to an end until there comes an applicable solution. Altering the perspectives of an individual regarding choosing jobs, introducing job vacancies in rural areas and controlling the growth of population are some of the solution to stop unemployment.

Unemployment rate in Bhutan remained unchanged at 2.50 percent in 2017 from 2.50 percent in 2016. This is all because of the notion of today's youth. Take a notice, one will realize that there are plenty of jobs available one can do but the notion is stuck within ourselves that an individual is only born to become engineers, doctors, lawyer and other high-profile professions. No one is interested to cut hair in saloon, see clothes in tailor, waiter and waitress in restaurants and hotels and other low earning jobs. If an individual doesn't possess with those talents, one can sing a song becoming singer, dance becoming

Photo Courtesy : Google image

choreographer, compose lyrics and others. In order to accept those careers, one should believe in self-sufficiency to earn satisfying living. Forbid dreaming always about sitting in chair. For that you have to be the best of best in any field. Even when it comes to the one who are giving the opportunities, they shouldn't look for the experienced candidates instead should give a chance to fresher to prove their competency (Viswanathan, 2016). The other thing a youth can do is to recruit in institutes or select the courses where proper training is given. Take the courses as per the interest and which will bright your future. In Bhutan, Zorig Chusum is one such example where a person can learn paintings, wood turning, carving, ornament making and other skills.

Another strategy to pause the rate of unemployment is that Government should encourage and develop the agriculture-based industries in rural areas, so that the rural people don't migrate to the urban centers (Due, n.d). Government should lend their full support to youth in establishing a dairy farm, fish farm, poultry farm, piggery, vegetable farming and animal husbandry. More unemployment should be generated in rural area so that this will not put more pressure on the urban city jobs.

The most important solution to

unemployment is to check the growth of population. Government should motivate people about proper family planning program and it should be implemented widely and effectively. In a nutshell it's all on youth to change and government to implement to solve unemployment.

Youth unemployment is a global problem and many of them have tried to solve it with power but always failed. The educated youth should change their mind and they should think of self-employment and they should consider every job equally in order

“In order to accept those careers, one should believe in self-sufficiency to earn satisfying living.”

to live a successful and blissful life. Your success in the job market has nothing to do with the job market itself-instead it has everything to do with you (Gray, n.d). Government also should play the role seriously in stopping the unemployment issue by encouraging agriculture-based industries, and motivating and creating awareness on proper family planning.

The Magic in Rainbow

Benita Rai, DTCSN

The first dawn fell in the JNEC
 With the rays around the chains of mountains
 Yet the dark cloud too appeared beside it.
 Question cling around the mind
 "Is that the bad omen?", I asked.
 Slowly it reached nearer to me.
 Feelings got hard and harder.
 But before the bad omen could happen,
 The seven colored rainbows appeared over the darkness.
 The feelings of relief showered over the JNEC.
 Then I began to think that yes, it is true
 There lies the "MAGIC IN THE RAINBOW."
 Watching over the VIBGYOR,
 Some kind of inspiration grew on me.
 Over this two year of life in JNEC
 I want to color my days
 With all the seven colors of rainbow
 If not at least some part of that seven colors.
 So, if I breaks down I want to remind myself.
 The "MAGIC IN THE RAINBOW".

Wrong Intuition

Sonam Wangchuk, D2CSN

When
 Something,
 Somewhere,
 Someone is wrong,
 Many people seem ignores it and,
 The consequences are what most people suffers.
 Therefore, when something is wrong,
 Don't ignore it,
 Tell them what is wrong.
 When someone is being wrong somewhere,
 Do correct them.
 Change is what society seeks,
 And every individual is the who makes society better.

Failure

Bola Nath Ghimrey, DTCSN

Hatred by other and incorporated by couple
 It has power to turn you big
 That once you have never analyze
 Would be possible in your life

 I too have once thought
 Failure has nothing to gain in life
 It's simply setback that seize away life
 My opinion, the best investment of all

 There are always two opinions to judge about
 Failure has always got the negative
 I also took the wrong diversion
 It was the impressionable nature of mind

 It is this time one possesses
 Failure shall never create the moment of sunset
 Rather creates the new dawn of energetic sunshine
 Take the chance and never look at ground
 It you possess failure you are exceptional
 You can avoid potholes that novice might not
 So, take it as your strength
 Put optimum might, look at sun to inspire you
 Because it is what it possesses create it.

Oh! God

Suk Bir Subba, D2C1

In the darkest night,
 Only death is lurking.
 Who over heard the end of life?
 Secret to Newton,
 Unknown to Einstein,
 And unexpected to John Keats.
 Is it life all about?
 Sometimes excess of time,
 Other it flickers. Oh! God -
 Confide us the due date
 OR
 Make us immortal!

Media Club members' presence in the Newsletter writing Workshop

Sonam Dema, D2CSN

With aspects to level up the quality of the newsletters published in the campus the JNEC publication unit organized a Newsletter Writing Workshop on 3rd of October 2018 coordinated by Mrs. Thinley Wangmo the Unit Publication coordinator and an editor. Thirteen members from the JNEC Media Club including the club coordinators attended the workshop.

First Newsletter Writing Workshop held in the campus lead by Mrs. Thinley Wangmo

Being a part of JNEC family and a colleague of JNEC Media Club, one's presence in the workshop was worth it and the knowledge one gripped from the workshop would not just heighten up the writing skills but it will be assisting us even in future with newsletter writing,

stated Sonam Chophel one of the member. The core aim of the workshop was to help the student reporter team to boost their knowledge about the write-up skills and to instill further their interest in reporting the newsletters.

Media Club Photo Exhibition

Sonam Dema, D2CSN

The College Media Club has been actively involved in fulfilling its objectives by initiating various activities to enhance the creative and innovative ideas that students possess in the field of digital media and entertainment. The club advisor and the members have been active in organizing activities. In the year 2017 on 13th October the club organized the first ever Photo Exhibition based on the theme "Beholding the moments around you," Coinciding with the Royal Wedding Anniversary and it has been a successful one.

JNEC Media Club organized the second Photo exhibition on the 5th of September, 2018 based on the theme "Life in JNEC." It is one of an annual event for the club

Seminar hall during Photo Exhibition

that is being carried out every year with an objectives to showcase the photography talents of the students and the staffs, then to enhance their creativities, assist them to open up their mind and explore the atmosphere around them through photos. Dr. Andu Dukpa, President of the college graced the event by offering butter lamp.

Out of forty-seven photographs, top thirty were judged and selected by the people from Kuensel Cooperation based on the defined criteria on 2nd of September. The best top twelve photographs made through the tough competition, judged by Mr. Sonam Jamtsho an ICT officer and Mr. Younten Tshering an Associate Lecturer of IT department, the club Advisor. Each photograph was numbered randomly and only three was selected as the best through voting.

The club rewarded the best photographs with the certificates and prices. Lungten Tshering from Diploma First Year Mechanical won the contest acquiring the highest votes and Tshering Dema Diploma Second Year Survey was declared as a runner up with second highest votes.

Media Club member with club advisor Mr. Younten Tshering during the Photo Exhibition

Rover Scout celebrates 100 years of Rover Scouting

Phub Dorji, D2C2

Rovers around the world are celebrating 100 years of Rover Scouting in 2018. The year 2018 marks a decade of Rover scouting in Jigme Namgyel Engineering College. Developing the significance of the “Rovers Centenary” and “Decade of Rover Scouting in the college” the Rover Scouts embarked on fund raising event for the community development initiative with the target to generate the amount of 100 hundred thousand within the time frame of 100 days. On September 26, 2018, the Rover Scouts of

Scout taking oath

Inauguration of JNEC Cafe

Tashi Yangchen, D1C2

To conclude the year to its best way, each and every person in the campus was pleased to instate the much awaited JNEC café on the morning of 22nd September, 2018. The inauguration was joined by President, Deans, Heads and other faculty members. The new

JNEC Cafeteria

Rover scout photo session with the DSA, President, and scout leaders

the College observed the day highlighting the importance of the event. The Rover Scouts commitment ceremony was aligned with the event. The new recruits were honored with the membership badge and scarf recognizing individuals successful training and the achievement.

The event was graced by the President of the College, Dr. Andu Dukpa joined by The Thromde Scouting Commissioner, Secretary and Scout Leaders from the Samdrup Jongkhar Thromde along with staff and students of the College.

The program commenced with the offering of butter lamp in front of His Majesty's portrait. The National Anthem,

Scout Anthem and “Zhabten” were carried out in ceremonial proceedings. The new recruits of Rover Scouting were awarded with the membership badge and a scarf. Additionally, in the form of recognition for initiative, hard work and dedication undertaken achievement award of “Service Badge” were given to deserving members. The welcome performance was led by the Culture club along with signing performance by Music club and a Rover Scout member. The Messengers of Peace dance was also presented. The draw of fund-raising lottery tickets and culture performance was carried out simultaneously. The event was supported with financial assistance from the college management.

The inauguration of Cafe by Hr. President Dr. Andu Dukpa

cafeteria is located at the outlet area in front of the College administration building.

It serves tea items and snacks (cakes, homemade pastry, zaw) others ice-cream. Sell of chocolate and biscuits including all plastic related are prohibited, considering

the impact on natural environment.

The inauguration of JNEC café received bunch of pleasing comments with wishes of its even processing. With a café to cater the needs of college every purchaser loved the amenity in the campus.

International Day of Peace with Rover Scout

Phub Dorji, D2C2

Each year the International Day of Peace is observed around the world on September 21. The day is devoted to strengthening the ideals of peace, both within and among all nations and people according to General assembly of United Nations. To inaugurate the day, the United Nations Peace Bell is rung at UN Headquarters, New York City.

The Roverscouts of the college coordinated in observing the International Day of Peace on 21st September, 2018. The

Staffs and students during the International Day of Peace

theme for 2018 Peace Day is “The Right to Peace.” The Rover Scouts Association with the aims to ‘develop integrative peace initiative’ and ‘awareness on Messengers of Peace’ conducted the

event. The program involved bringing of exclusive ideas and exploration on the importance of the day through session. The peace pledge was made on the banner by every attending member.

BUSF (Bhutan University Sports Federation)

Sonam Dema, D2CSN

On the 1st September, 2018 the BUSF was held in Jigme Namgyel Engineering College with great eagerness, excitement and playful atmosphere. The match was played between two colleges, JNEC and Sherubtse College and the two-team competed in tournaments including Basketball, Football and Volleyball. The volleyball and basketball match played among the boys of the two team was epic with both teams working hard to earn points for their team. However, the match was won over by the Team Sherubtse. The boys Team JNEC put forth valiant efforts to defend during the boys’ football match and they won the match against the Team Sherubtse. For the match among the girls of the two team, Team JNEC won the tournament in basketball and football but except for the volleyball, Team Sherubtse won the game in a great vigor. The tournament

Boys playing Basketball during BUSF between Team JNEC versus Team GCIT

was over by 2nd September, 2018 and the ending ceremony was graced by Honorable President Dr. Andu Dukpa.

Another fascinating tournament, on 28th of September, 2018. The match between Team JNEC and Team GCIT (Gelposhing College of Information Technology) was the final tournament of BUSF 2018. The tournament was coordinated by the sport committee of Jigme Namgyel Engineering College. During the tournament the boys’ team, Team JNEC won the match in football and Volleyball but they lost the game to

Team GCIT in basketball. For the girls, Team JNEC won the match in both the basket ball and football but it was lucky for the Team GCIT that they could defeat Team JNEC in basketball match.

With a desperation to win the title of the tournament, all the teams played with an intensive stamina and with respectable behavior in the games field, as well as with positive attitude towards an individual player the tournament ended well. The BUSF 2018 was the fascinating and remarkable that one to be remembered.
